CCURE VPN Pool

This Tutorial is to show users how to connect to the CCURE VPN Pool to access either the CCURE web portal or use their CCURE software.

Let's start by connecting to the Campus VPN.

From here we modify the authorization on the username to include @ccure followed by password. Select "OK" when done.

The final step is to accept connection to the VPN Pool, from here you can navigate to CCURE Web app or use the Desktop Client to connect.
